

## KIMBALL BEND CEMETERY

From entry gate looking into cemetery, odd numbered sections are on right side, even numbered sections are on left side. EXCEPTION: Section 1 and 1 N are on left side.

The cemetery is composed of seven (7) different cemeteries that were moved by the Corps of Engineers and combined and located at present location due to the building of Lake Whitney.

Cedron Creek Cemetery # 15 consisting of four (4) graves,  
Allen Bend Cemetery #16 consisting of 40 graves,  
Allen Bend Cemetery # 16 A consisting of 7 graves,  
Powell Cemetery # 18 consisting of 82 graves,  
Kimball Cemetery # 19 consisting of 647 graves,  
York Cemetery # 20 consisting of 1 grave and  
Pogue Cemetery # 10 and 10A consisting of 28 graves were all moved to the present location. They are located as follows:

Pogue # 10 and 10 A – Section 17 – Lots 583 thru 614  
Powell # 18 – Section 19 and 21 – Lot 1 thru 64  
Allen Bend # 16 – Section 23 – Lots 1 thru 15 and Lots 19 thru 32  
Allen Bend # 16 A – Section 23 – Lots 17 and 18  
Cedron Creek # 15 – Section 23 – Lot 16  
All are located on right side of Cemetery at end of road except York  
York Cemetery - Section 2 – Lot 38

The number after the cemetery name is the number assigned to that particular cemetery by the Corps of Engineers.

The number after a name or space for name is the number assigned by the Corps of Engineers to identify a grave moved by the Corps.

Each lot is 18 ft. deep x 24 feet wide – space allocation is from right to left and would read as follows when looking from the main road:

EDCBA

JHGF

PLEASE NOTE: There are some lots which have more burial spaces than normal due to the way they were buried.(Mainly very close to each other and crowding the lot)
